**Contracting Authority:** Ministry of Cultural Heritage and Environmental Conservation  
Naples Department

**Location:** Naples - Italy

**Type of work:** Interior Lighting

**Lighting Design:** Filippo Cannata

**Lighting Design team:** C. Masone

**Completed:** 2002

In this sacred place lighting shows to the visitor how the baroque excess is in harmony with the bright rarefaction which is poetically regulated. The project makes light sacred and at the same time reveals the power to evoke the sublime that this place represents. Lighting emphasizes the abundance of décors, highlights the hollows and the shadows that they generate. Light and shadow create an emotional path, a way of spiritual ascent which guides the visitor from the entry portal to the magnificent altar.
