Location: Caserta - Italy

Architect: Ministry of Cultural Heritage and Conservation of Caserta

Photographer: Cannata&Partners

Type of work: Lighting of the Park and Palace façade

Lighting Design: Filippo Cannata

Completed: 1997

The Palace and the statues of Caserta Park. Light we realized is made of slight contrasts and soft caresses; we tried to acquaint the public with the legend, the myth of Diana and Atteone which tells about amorous pursuits and incredible transformations. The light that animates the fountain is the light of feelings we want to share with people watching. Light makes characters and their stories living, it seems to hear their dialogues and their prayers, marble gets a life which has never had.
