**Type of work:** Interior Lighting

**Lighting Design:** Filippo Cannata

**Lighting Design team:** N. Fiorillo, C. Masone

**Completed:** 2005

In a museum light must be unobtrusive and do not surpass the exposed works; the powerful vaults lend themselves very well to the creation of wrap and emotional light. The exhibition space with its pure volumes, its natural materials, enriched with a soft light illuminating them assumes a new character which is charming and comfortable.
