

CHRISTMAS IN SAN LORENZELLO ILLUMINATED BY CHILDREN

S. LORENZELLO (BN) - ITALY

Credits

Category: Events

Client: Municipality of S. Lorenzo (BN)

Location: S. Lorenzo (BN) - Italy

Type of work: Lighting of Christmas Event

Lighting Design: Filippo Cannata

Lighting Design team: Gaurav Jain,
R. Esposito, P. Romano

Completed: 2004

The lighting project was carried out by playing with children in schools, we turned to light their thoughts on Christmas. We realized a symphony of light which leads, with his enchanting notes, the inhabitants of St. Lorenzo to love their city. People who involve the renewed urban centre perceive a different atmosphere, perhaps they will feel disoriented but they will understand how simple was changing the face to their village: it was enough to change light.
